

DOES YOUR
OUTSIDE
MATCH HOW
YOU FEEL ON
THE INSIDE?

INNOVATIVE
AESTHETICS

Meet Dr. Cain

Dr. Jim Cain III has been a practicing physician for more than 27 years. He has studied aesthetics extensively, including participation

in a two-year fellowship with Dr. Sharon McQuillon of the Ageless Aesthetic Institute (the only Level Four ACCME accredited aesthetic training program for medical professionals); as well as lengthy training with Dr. Robert True of Arlington, Texas. Dr. Cain is certified in all of the cosmetic procedures offered by Innovative Aesthetics.

Look as good on the outside as you feel on the inside. Call or come in today for a complimentary consultation and find out how Innovative Aesthetics can help refine your appearance with subtle techniques that offer dramatic results.

For a moment, forget your actual age.

How old do you really feel? If you're like most people, you feel much younger than you actually are. Isn't it about time that your outside reflects the younger you inside?

Innovative Aesthetics offers a full spectrum of laser and aesthetic medical services to keep you looking as young as you want to be. With the SmartXide DOT™ Therapy

laser, Dr. Jim Cain III and his medical staff can help you reduce wrinkles, sun damage, acne scarring and rosacea – and still be back to work within 48-hours.

You might choose a quick rejuvenation option such as BOTOX®, Restylane® or Juvéderm™. A Thermage® procedure can tighten and lift your skin and reduce

BOTOX® Cosmetic is a simple, non-surgical, physician-administered treatment that can temporarily smooth moderate to severe frown lines between the brows in people from 18 to 65 years of age. It is the only treatment of its type approved by the FDA.

Restylane® / Perlane® are cosmetic dermal fillers that replace lost volume and restore youthful contours to the skin to smooth away moderate to severe facial wrinkles and folds. Restylane is the world's most used, most studied dermal filler, and has been used in over 70 countries and in more than 1.4 million treatments in the U.S.

Services

Thermage

Thermage is a safe, clinically proven procedure to tighten and contour skin, with improvements in tone, contour, and texture occurring naturally through the stimulation of your own collagen. Thermage is completely non-invasive: no surgery, no injections. A single treatment tightens your existing collagen and stimulates new collagen growth, which results in a younger appearance.

SmartXide DOT™ Laser Therapy

The SmartXide DOT™ laser is the next generation of CO2 laser technology. It is ideal for the treatment of dyschromia, skin laxity and texture, wrinkles, dermal lesions, photoaging, acne scarring and scar reduction. DOT Therapy creates thousands of microscopic perforations, which induce immediate skin tightening and stimulate new collagen growth, improving the skin's texture and tone to fight fine lines and deep wrinkles, and even acne scars. Unlike traditional CO2 lasers which required several weeks of painful downtime, SmartXide patients achieve similar results but they can return to normal activities within 48-hours.

VASER LipoSelection®

VASER LipoSelection is a minimally invasive body contouring procedure that precisely and efficiently removes unwanted body fat. An alternative to the harsh techniques of traditional liposuction, VASER LipoSelection uses state-of-the-art ultrasound technology designed to gently reshape your body. Innovative VASER Technology breaks up fat while conserving these other important tissues. Only the LipoSelection procedure uses the proprietary VASER Lipo System to first liquefy fat and then remove it from the body to promote smooth results and rapid healing with low to minimal pain.

SmartLipo™

SmartLipo™ is the first laser-assisted liposuction procedure. FDA approved, SmartLipo uses a carefully calibrated laser to liquefy fat deposits through the top layers of the patient's skin. The laser actually ruptures fat cells, and the resulting oily, liquid substance is then removed through a tiny incision by the surgeon. The small laser can also seal blood vessels as it zaps fat, so there is less swelling, bleeding and bruising than with traditional liposuction. In addition, the SmartLipo laser acts as a visual guide, helping the surgeon make more precise movements than typical liposuction.

Dermal Fillers

Juvéderm™ is a smooth consistency gel made of hyaluronic acid—a naturally occurring substance in your skin that helps to add volume and hydration. Your healthcare professional eases Juvéderm™ injectable gel under the skin to instantly restore your skin's volume and smooth away facial wrinkles and folds, like your smile lines.

the appearance of cellulite - over your lunch hour! Or for permanent fat removal and body sculpting, Dr. Cain can reveal your naturally beautiful figure with SmartLipo™ and VASER LipoSelection®.

Come in for a complimentary consultation and find out how Innovative Aesthetics can help refine your appearance with subtle techniques that offer dramatic results.
