

GENERATING ELECTRIC POWER:

Key Legal & Technical Power Plant Issues

April 27 - 29, 2010
Intercontinental Hotel
Houston, TX

Organized by: The Boyce Consultancy Group, LLC
& Shapiro, Lifschitz & Schram

Make plans to attend the first annual **Generating Electric Power: Key Legal & Technical Power Plant Issues** seminar — a one-of-a-kind learning experience and networking opportunity for **Project Managers, Bankers & Credit Managers, Accountants, Plant Managers, Plant Engineers, Sales Professionals, and Legal Advisors & Attorneys.**

This seminar delves into key business, engineering, legal issues and concepts associated with power plant development, construction, design, and operations.

SAMPLE TOPICS INCLUDE:

- *Alternative Sources of Energy*
- *Structuring Financial Development Packages*
- *Major Plant Operational Problems*
- *Drafting and Understanding Engineering, Procurement and Construction (EPC) Contracts*
- *Key Contractual Terms*
- *Claims, Delays and Damages*
- *Liquidated Damages*
- *Dispute Resolutions, Mediation, Arbitration and Litigation*
- *Long Term Service Agreements (LTSAs)*
- *Engineering Pitfalls to Avoid*

This seminar is taught by **Professor Meherwan P. Boyce**, Ph.D., P.E. (USA), C.Eng. (UK), Fellow ASME (USA), IMechE (UK), & IDGTE (UK) and **Attorney Judah Lifschitz, J.D.** — two highly experienced and respected practitioners in their fields.
